

*Qatar Academy presents -*

# **Flat Classroom Conference**

## **Leadership Workshop and Student Summit**

**January 24-26, 2009**

You are invited to be part of this amazing get together of leaders, educators and students as we workshop, discuss and take action about what it means to lead, teach, learn and live in an increasingly flat world.

Two strands: '**Leadership Workshop**' and '**Student Summit**' will meet separately as well as in combined sessions to discuss best practice and promote global collaborative leadership as part of a global flat classroom. All participants will be given the opportunity to develop leadership skills in using information technology, particularly Web 2.0 tools, to connect, communicate and collaborate.

### **INTERNATIONAL PRESENTERS AND WORKSHOP LEADERS**

**Don Knezek and Lynn Nolan** – International Society for Technology in Education, USA

**Vicki Davis** – IT Director, Westwood Schools, Camilla Georgia, USA

**Julie Lindsay** – Head of Information Technology and E-Learning, Qatar Academy, Doha, Qatar

**Dr John Turner** – Flat Classroom teacher, Presbyterian Ladies College, Melbourne, Australia

**Jeff Utecht** – Educational technology consultant, International School Bangkok, Thailand
